- Chris

Previous Week Goals
- Gantt chart
- Started layouts
- API tests written
- Implemented API

Goals for Next Week
- Fully implement Necessary API calls
- Implement necessary tests for main activities
- Start on implementations of main activities

Meeting Notes
- Discussed layouts and fragment design to be able to seamlessly go between fragments/activities.
- Discussed testing, API implementation, and when each should be implemented and in what order.
- Planned for the future using the Gantt chart and discussed how much work would be needed roughly for each area.
- Discussed consolidating our code base and file paths as they are messy.
- Updated gitignore to not include personal .idea files
