Team 3

Weather or Not

12/7/21

11:00 AM

Discord

Team Members

1. Elaine Franta
2. Zach Menter
3. Chris Lofgren (Facilitator)
4. Nick Pronschinske

Previous Weeks' Goals

1. Finish database design and implementation - Nick
2. Continue working on tests for activities - All
3. Resolve API issues
4. Display API data in activities – ALL
5. Nick - Work with Chris and get DB calls working
6. Zach - Device current location, location geocoder
7. Elaine - Fix UI Suggest/Select, Get drop down menu set up
8. Chris - Help with DB calls

Meeting Notes

- Select/Suggest Fragments – still needs work, pending database completion
- Multithreading
    - Now working, though multiple tries were needed
- Geocoder issue
    - Resolved currently by reimporting the project
- Database
    - Issues arose, currently being worked on (expected to be done by EOD 12/7)
    - Start with database calls
- Drop down menu better
    - In future would need a search bar, add own activities, and enter location
- JSON parsing
    - Success using Google's GSON library
- Display activities in a drop down menu

Next Week's Goals

- Prepare select/suggest fragments (suggest by 12/9, select 12/14) – Chris, Elaine (all as needed)
- Finish database – Nick, Zach (all as needed)
- Finish geolocation API issues - Zach
- Look for remaining bugs to fix before final submission - all
